PROFESSIONAL EXPERIENCE

Frontend Developer

The Mirror LLC Aug 2025 – Jun 2026 Remote, Nigeria.

- Maintain and enhance a production Angular application supporting mentorship workflows.
- Develop reusable and scalable UI components using Angular, TypeScript, and Tailwind CSS.
- Integrate RESTful APIs to deliver reliable and efficient data flow between frontend and backend services.
- Improve application performance by optimizing API requests and minimizing unnecessary component re-renders.
- Collaborate with backend developers, designers, and product stakeholders throughout feature development.
- Participate in testing, debugging, code reviews, and deployment activities.

Frontend Development Intern

FlexiSaf Edusoft Limited Sept 2025 – Dec2025 Nigeria.

- Completed intensive hands-on training in HTML, CSS, JavaScript, React, and frontend engineering best practices.
- Built responsive web applications and reusable UI components during practical learning projects.
- Consumed REST APIs and implemented dynamic user interfaces using React.
- Used Git and GitHub for version control and collaborative software development.
- Applied clean coding principles, component-based architecture, and responsive design techniques.

Software Engineer

Freelance July 2026 – Present

- Developed responsive, user-friendly web applications using React, Angular, TypeScript, JavaScript, Tailwind CSS, and Material UI.
- Built reusable frontend components and optimized application performance, maintainability, and cross-device compatibility.
- Designed and implemented RESTful APIs using Node.js and Express.js to support frontend functionality and business requirements.
- Developed and integrated backend services, authentication systems, role-based access control, and authorization workflows.
- Designed and managed databases using MongoDB and Mongoose, implementing data models, validation, and CRUD operations.
- Integrated frontend applications with backend APIs, handling asynchronous requests, loading states, error responses, and data management.
- Implemented secure authentication workflows using JWT, HTTP-only cookies, and protected routes.
- Collaborated with designers, backend developers, and other team members to translate requirements into functional software solutions.
- Used Git and GitHub for version control, collaborative development, and code management.
- Troubleshot bugs, performed application testing, and improved code quality, reliability, and maintainability.
- Deployed and maintained web applications using platforms such as Vercel, Render, and cloud-based hosting services.
